

## PROTECTIVE GLOVES

 Sizes: ..... 11  
 Packing: ..... 12/120[par.]  
 Package: ..... 32x35x35 cm/26 kg

Welding gloves, completely made of cowhide.

- split cowhide

- length of the glove 35 cm

- split cowhide
- length of the glove 35 cm
- full hand pad - handling part of the glove is made of one piece of leather and that is why it has better endurance and resistance to frays
- fully made of leather; it also applies to cuff which reaches the half of the forearm and that is why it fully protects the wrist against injuries drenching
- ideal for places where the hazard of sparking occurs
- typically used for general mechanical works
- used in building engineering and heavy industry
- they meet requirements of the EN388 standard (resistance levels: 4 0 2 3), EN407 (resistance levels: 4 1 XX 2 X), EN12477 B TYPE
